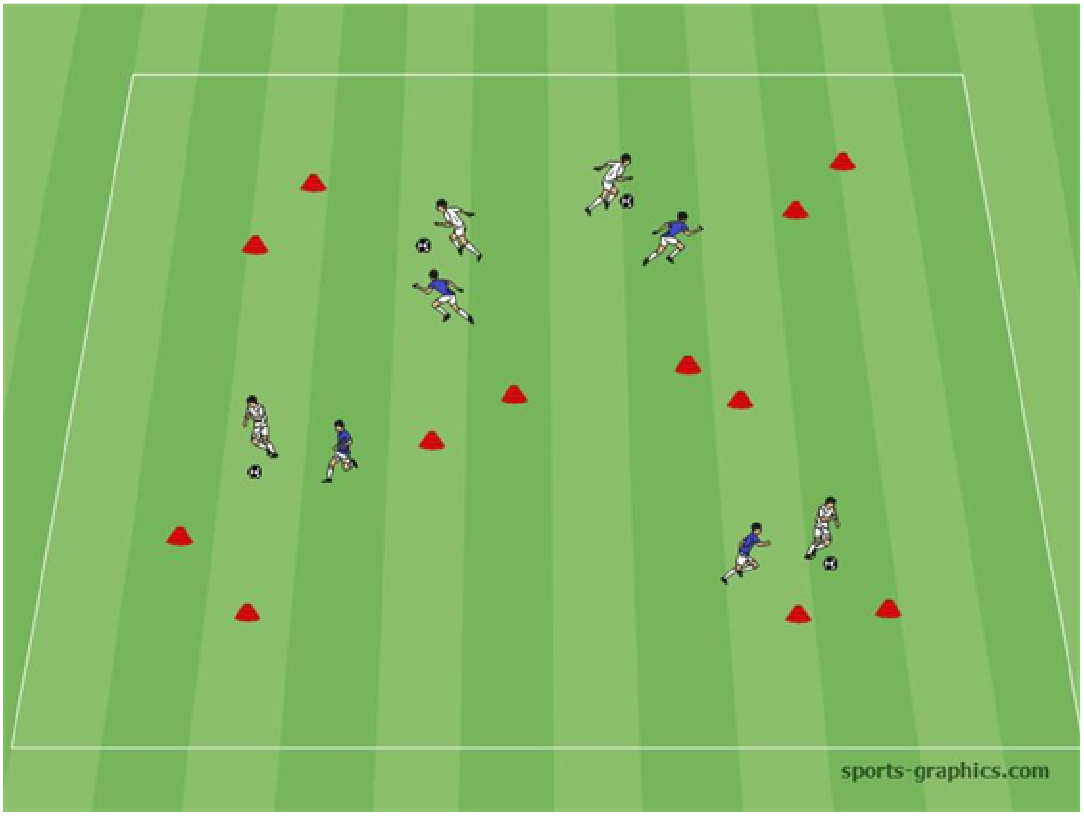
Dribbling - Multiple Gates


Setup: 30X40 area (adjust to your # of players and age). Multiple "gates" made with cones.
Instructions: Play multiple 1V1 battles. Dribbler scores by dribbling through gates. Defender must deny the dribble through the gates, but cannot steal the ball. Play 1 or 2 minutes, and switch roles. Keep score. Variation 2: Defenders can win the ball. Keep score.
Coaching Points: Take soft short touches, keeping the ball "tied" to your feet. Quick choppy steps, with constant changes of direction. The objective is to be unpredictable and to move the ball before the defender can react. Make the defender commit to defend one gate, and immediately change directions to another gate. Use every surface of both feet.
