

2V1+1 Possession

SETUP 10X10 yard area. 2 teams of 2 players.

INSTRUCTIONS Play 2v1 continuously. When the defender wins the ball his team mate waiting outside comes in. The attacker who lost the ball becomes the new defender, and his other team mate goes outside. A player who lets the ball go out of bounds becomes the new defender.

COACHING POINTS: Player on the ball must dribble to escape the pressure and look over his shoulder to find his open team mate. The supporting attacker must make runs to the passing lane that is open. Players should ask themselves: which passing lanes is the defender taking away, and which passing lane is the defender giving us? Pass to the feet while on the dribble. Turn on the first touch. Pass and move immediately.
