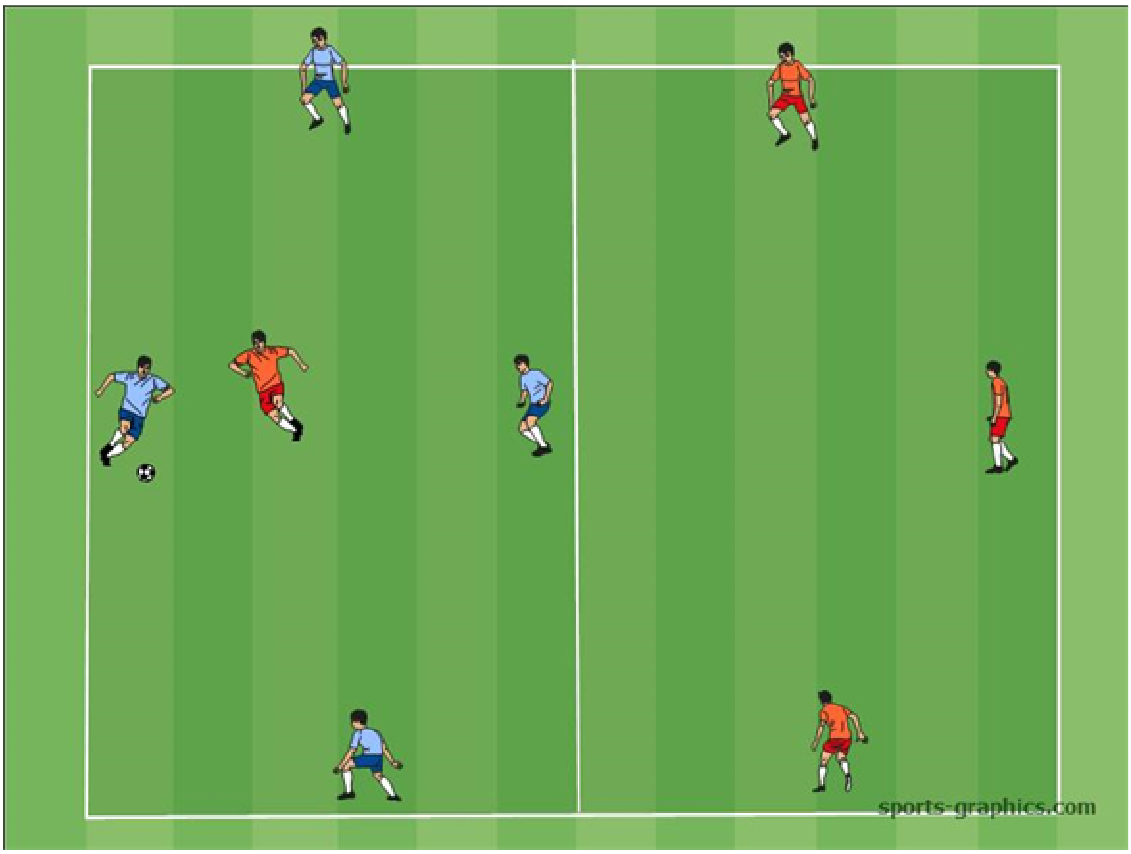
Possession 4V1V2V3


Setup: 15X30 yard area divided in half. Two teams of four.
Instructions: One team possesses against one defender. Every 4 or 5 passes in a row counts as a point. After each point the defenders send in an extra defender, up to 4V3. Defenders win the ball and pass to their home court, and play 4v1, 4V2, etc.
Coaching Points: Players off the ball must create time and space. Provide width and depth. Player on the ball: pass early, to the player with the most time and space. Be aware what options the defenders are taking away, what options they are giving you. If the defender is too close escape the pressure side to side before passing. High tempo. Establish a steady passing rhythm.
