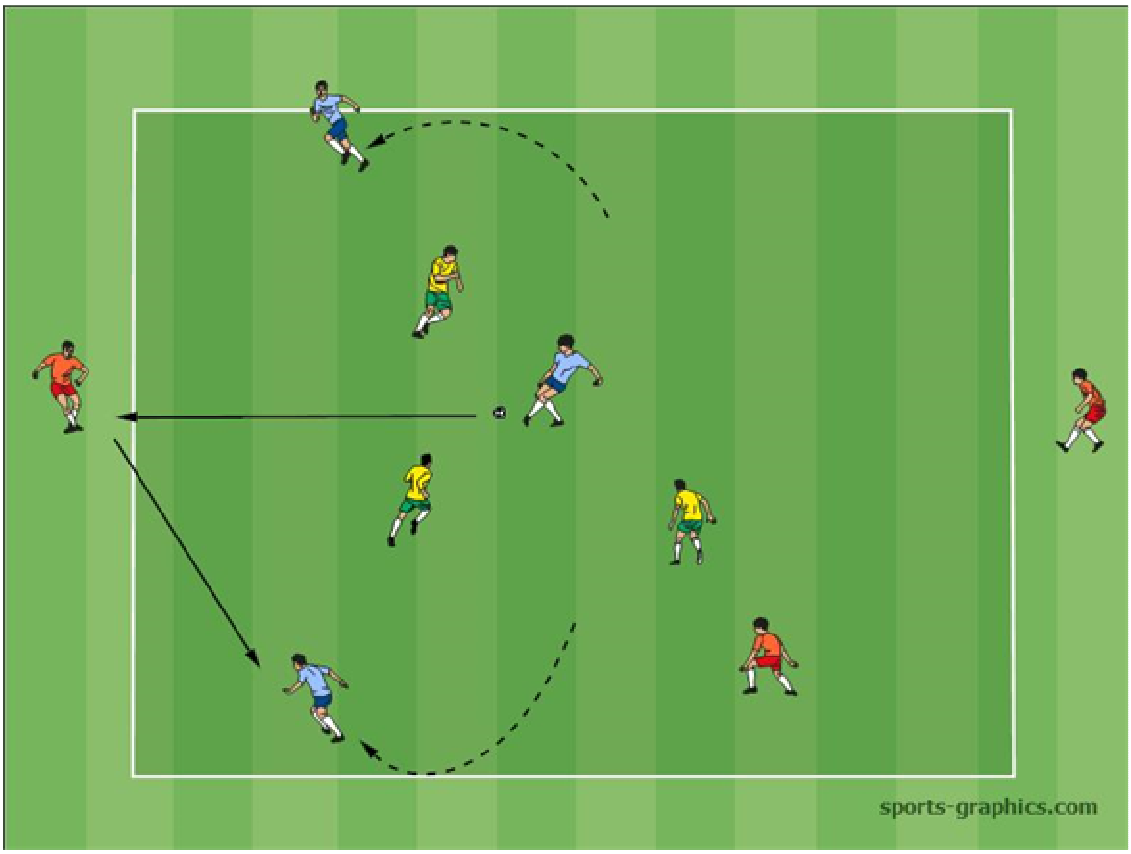
3V3+3 Targets Game


Setup: 20X35 yard area. Adjust as needed. 3 teams of 3 or 4 players.
Instructions: Two teams compete to possess the ball. The other team serves as targets/neutral player. Score points by passing to one target and then to the opposite target, maintaining possession.
Coaching Points: Speed of play (1 or 2 touches per player ideally). Players off the ball must create time and space, and move constantly. Escape the pressure before passing if defender is near. When the ball is passed to the targets players must run wide to provide support. Look for split passes. Be patient - always make the safest passes. Be aware what the defender is taking away and what he is giving you. Take what he gives you.
