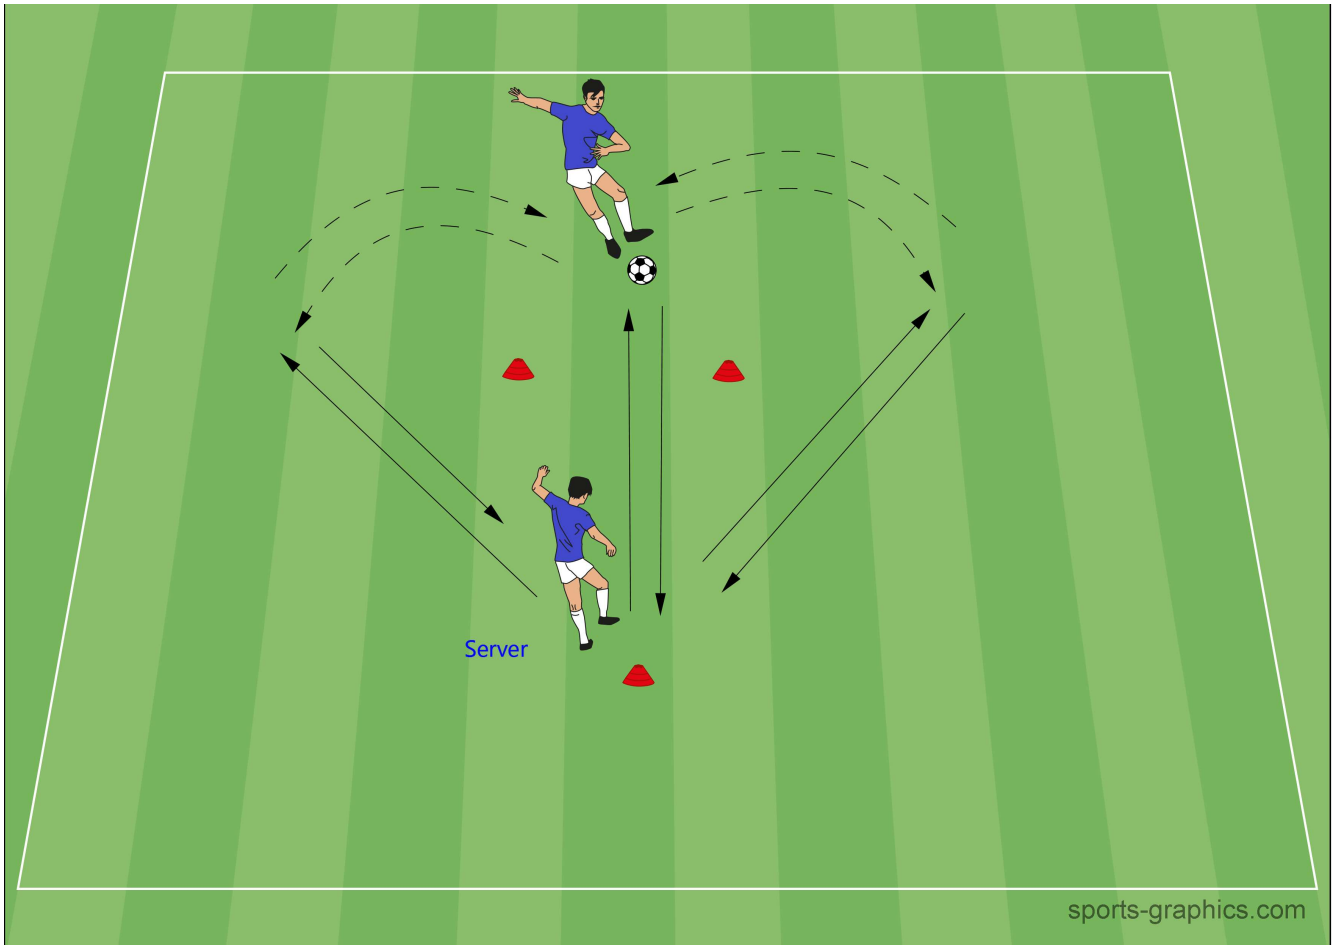
Passing & Receiving Warmup 1



SETUP: Two cones per pair of players, three feet apart. A third cone behind the server. Set up enough of these so all your players can work at the same time - no waiting in line!
INSTRUCTIONS: One player remains in place and serves the ball to his team mate. The receiver moves from the middle to the side, back to the middle and to the other side, continuously. Variation 1: two touches. Variation 2: one touch passing.
COACHING POINTS: Pass with the inside of the heel, with toes pointing up. Stroke through the ball and swing your leg up in the direction of the pass. Knees bent, chest slightly forward, weight on your toes so you can react quickly.
