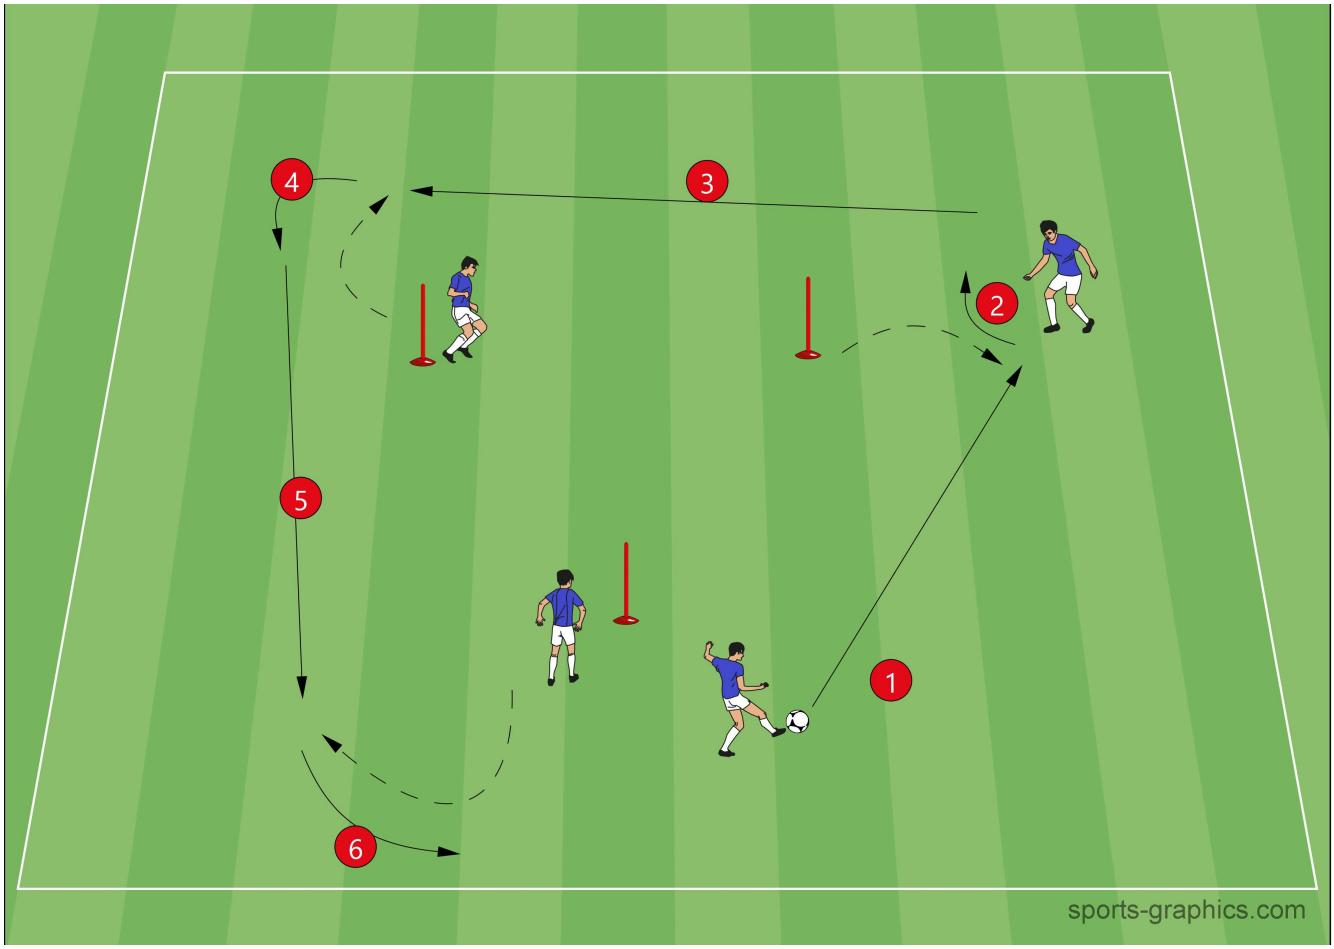
Passing & Receiving Warmup 4 - Large Triangle



SETUP: Triangle using poles or large cones, 10 yards apart. Four players and one ball. Poles represent defenders.
INSTRUCTIONS: Start play from the corner with two players. Player with the ball cues the receiver by taking a small touch away and looking up. Receiver cues for the pass by popping away from the pole with speed and energy. Receiver redirects the ball with one touch to face where the next pass will go. The passer sprints and follows the pass taking the place of the receiver. Pass clockwise 40 passes, then repeat counterclockwise 40 passes. The coach specifies how playes receive the ball: inside the far foot, inside near foot, outside near foot, etc.
COACHING POINTS: Follow the cues above - the passer takes a small touch and looks up, the receiver pops away with energy, the pass is made, turn when receiving, redirecting the ball, repeat. Time the runs and passes. Accurate pass. Turn on the 1st touch to face the player you willl pass to. Variations: 1. ball moves counterclockwise, pass with the inside of the right foot, receive with the inside of the right foot redirecting the ball; after 40 passes do it counterclockwise, left foot, 40 passes; 2. ball moves

counterclockwise, pass with inside right foot, receive with outside right foot (pointing the toes down) to redirect the ball, 40 passes. Repeat clockwise with left foot.
