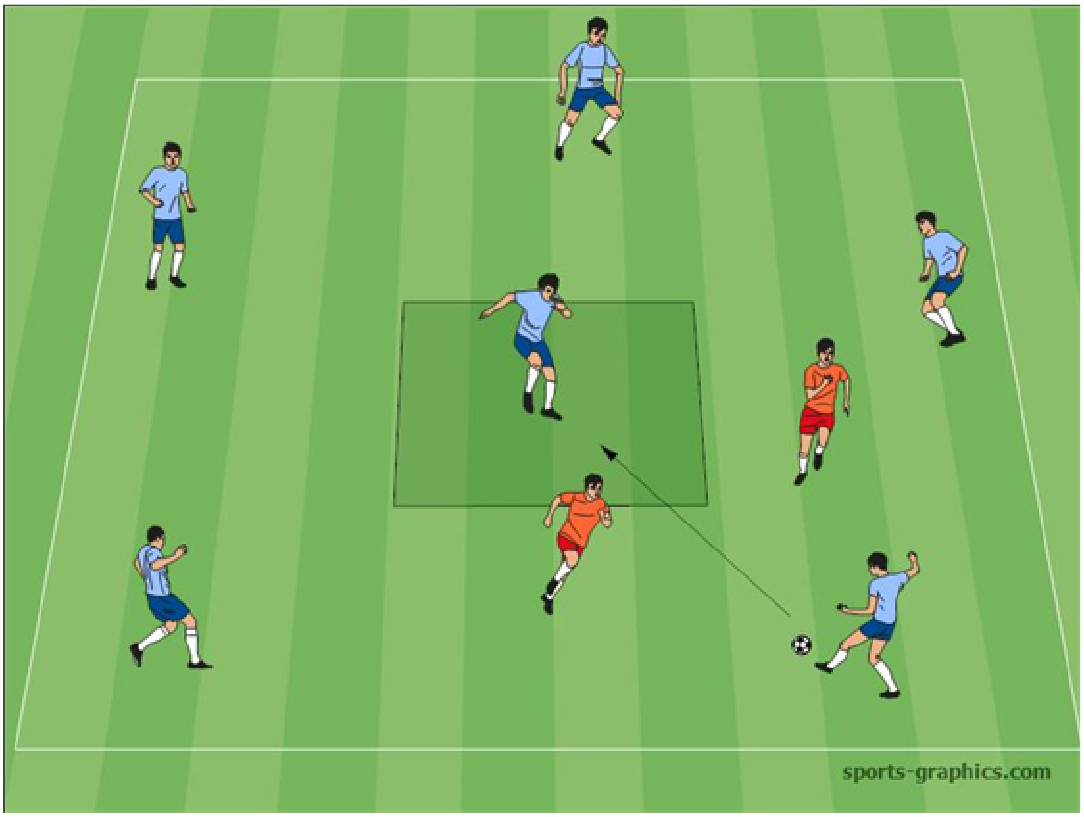
Rondo 3 - Central Target


Setup: 12X12 yard square with a 4X4 yard central square.
Instructions: Play 6V2 or 6V3 (adjust numbers as necessary) with a central target. No defenders allowed in central square. Attackers score by splitting defenders or passing to the central target. Defenders score by passing to the coach.
Coaching Points: Pass to the feet. Speed of play - one or two touch play if possible. If you are under high pressure excape the pressure before passing. Pass to the player with the most time and space. Don't force the split pass, be patient and only attempt that when it is safe. Mental speed - anticipate the play. Constant movement off the ball. Be aware what the defender is taking away and what he is giving you. Take what he gives you.
