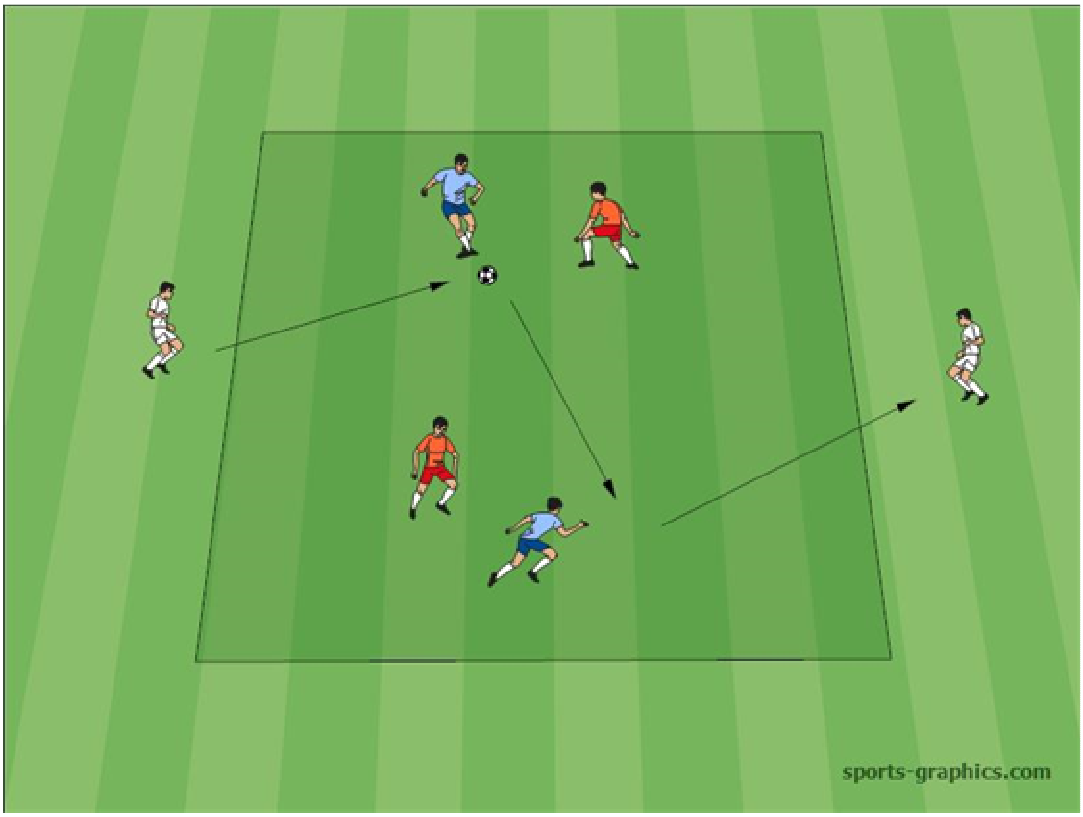
2V2+2 Targets


SETUP: 20X20 yard area. 3 teams of 2 players. One team is on opposite ends serving as neutral target players.
INSTRUCTIONS: Play 2v2 in the middle. The team in possession scores points by passing to the outside target players, getting the ball back, and passing to the opposite side without losing possession. When a team scores 3 points the losing team becomes the target players.
COACHING POINTS: Escape the pressure by dribbling side do side. Look over your shoulders to find your team mate. Pass to the feet. Turn on the 1st touch. Move off the ball to get open. Create maximum width. When you play to the target both inside players must move wide to create time and space. Target players must move laterally to provide a safe angle.
