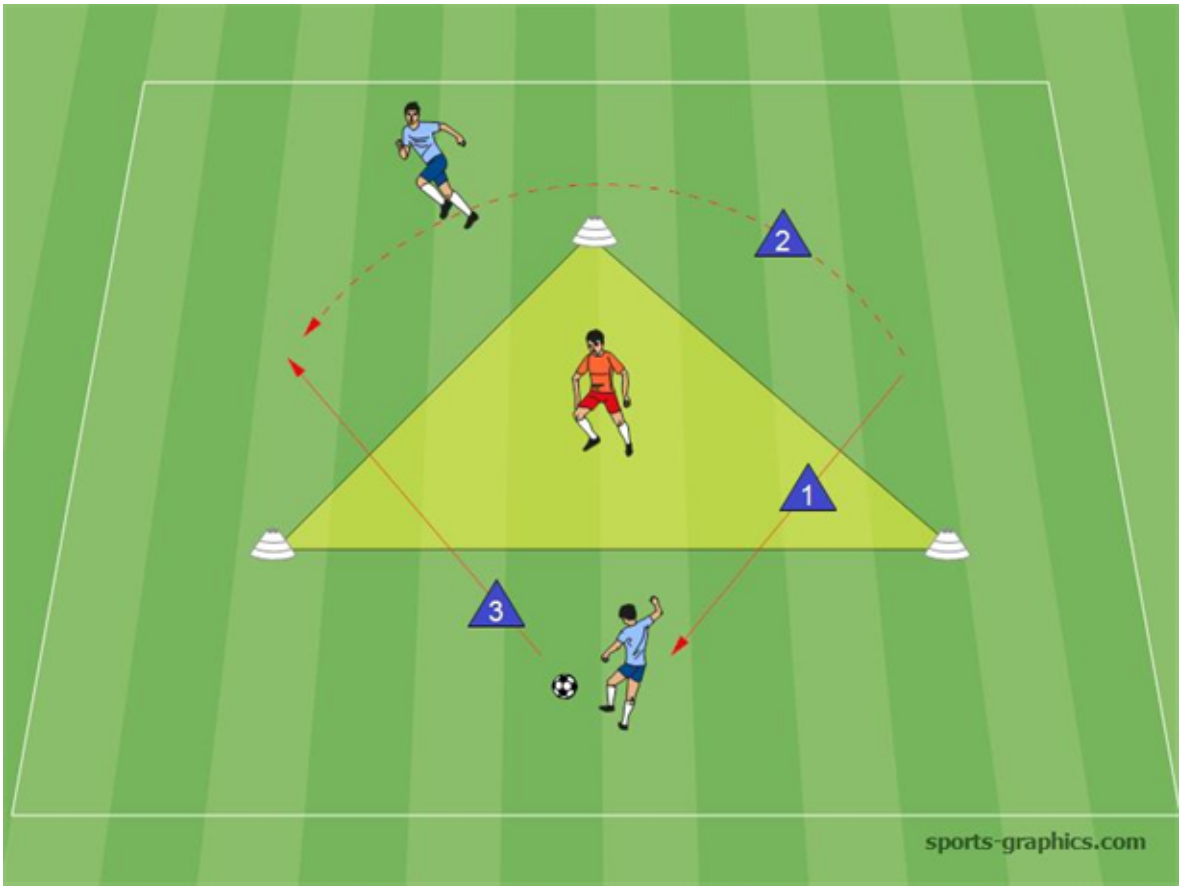
2V1 Triangle


Setup: 3 players, one triangle, defender in the middle.
Instructions: Two players possess and score by passing through the triangle. Defender tries to intercept. If defender wins the ball he replaces the attacker who made the mistake.
Coaching Points: Try to keep it 2 touches. Use deception. Pass and make the run to complete the triangle, or check back to where you were - depending on the defender's movements. Heads up so you can see what options the defender is taking away and what options she is giving you. Take what the defender gives you.
