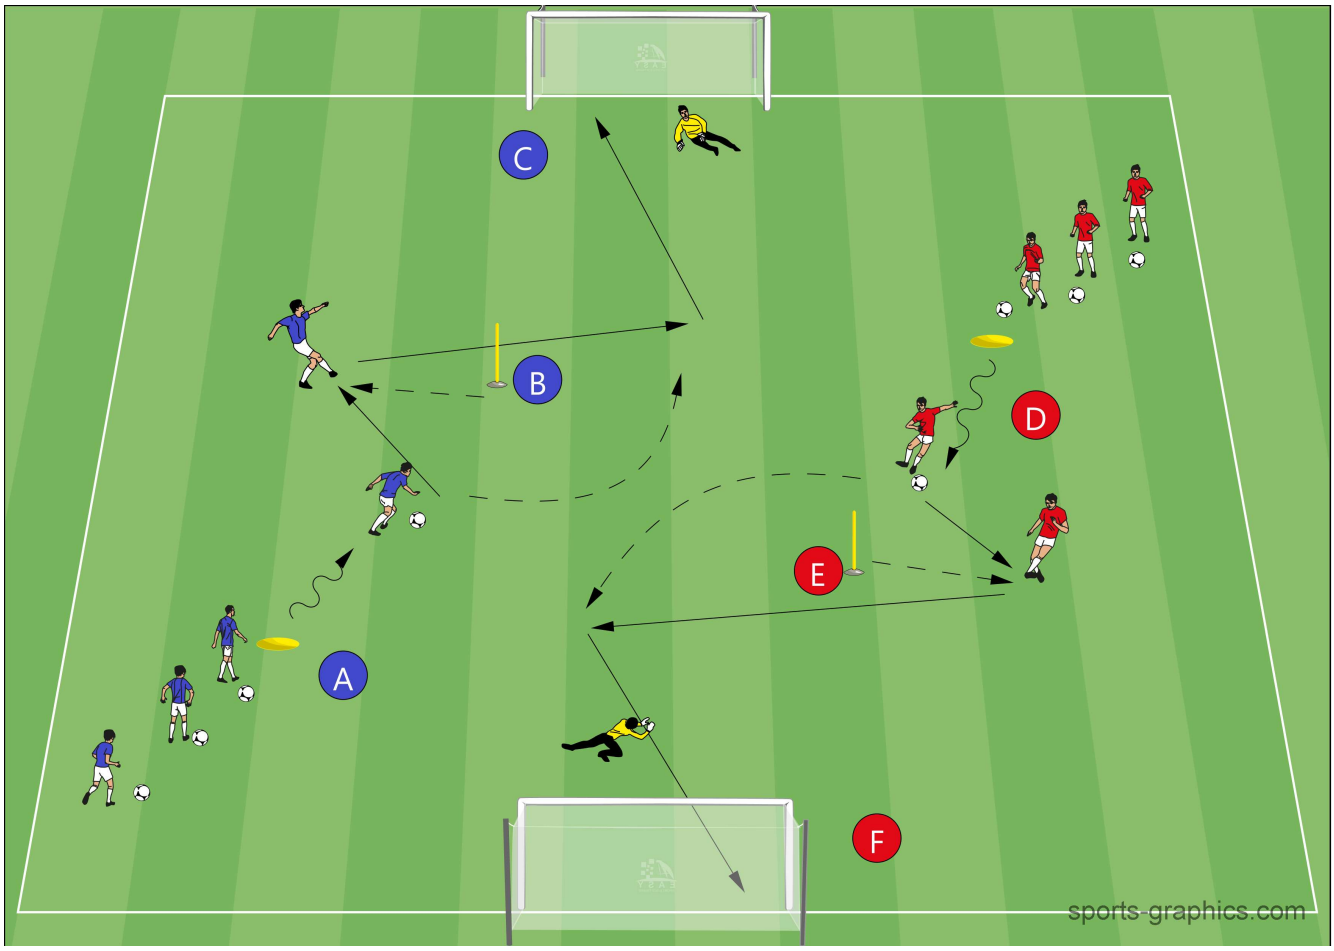
Shooting Variation 5 - Double Pass - Give & Go - Shot



SETUP: 2 large goals 30 yards apart. Two lines of players, A and D, each with a ball. Two poles (=defenders) B and D, with a target player facing A and D. Goalkeepers C and F.
INSTRUCTIONS: A passes to B, B returns the pass to A and opens up to the outside. A dribbles toward the pole, and does a give & go with B. B lays it off in the central space, and A shoots. D, E and F do the same on their side. The pole marks the offside line - players must be onside when the pass is made to them. Rotation: A to B to C to A. D to E to F to D.
COACHING POINTS: Passes must be accurate. Use correct dribbling and passing technique. Target player must face the central space when opening up. Give&Go: A passes to B's feet, B passes to space ideally with one touch. Time the runs so you remain onside.
